

WATER STATION III

Water System *Engineered*
for the Way You Live™

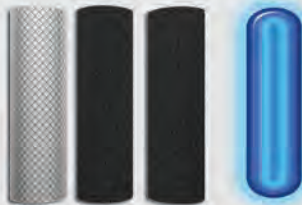

WATER STATION III™ - Maximum Water Production - Maximum Protection
 Water DoctorsSM Water Station III™ point-of-use water purification systems deliver pure, delicious, hot and cold drinking water right where you need it. These bottle-less, plumbed-in systems are available as self-contained purification units with installed reverse osmosis or micro filtration systems. High water production volume allows the Water Station III™ to serve as a hub, feeding purified water to additional devices including other Water Stations™, coffee machines and ice makers. Water Station III™ features in-tank Ultraviolet (UV) disinfection and BioCote® impregnated surfaces providing further protection against bacteria and viruses.

Filtration Options:

3-Stage

1-Micron
 Micro Filtration
 with Scale Inhibitor
 In-Tank UV Guard

4-stage

80 or 250 GPD
 Reverse Osmosis
 In-Tank UV Guard

**WATER STATION III™
 Maximum Everything!**

Maximum Water Volume:

- 80 or 250 Gallon per Day RO System
- Stainless Steel Hot and Cold Tanks
- 2.4 Gallon Bladder Tank for Immediate Recovery

Maximum Protection:

- In-Tank Ultraviolet (UV) Sanitizes the Cold Tank
- BioCote® Protection from Surface Bacteria and Viruses
- Sanitary Push Button Dispense

Maximum Convenience:

- Large Dispense Area for Tall Sport Bottles
- Fast Dispense Rate
- Large 3/8" Coffee Maker/Ice Machine/Hub Port
- Continuous Water Supply
- Energy Efficient
- Environmentally Friendly
- Economical
- Delicious!

15.25"W (38.7cm) x 17.5"D (44.5cm) x 45.5"H (115.6cm)

Protection

BioCote® silver ion technology is incorporated into the Water Station III at the time of manufacture. It then provides continuous and durable

antimicrobial protection on treated product surfaces, to help protect against possible degradation: it does not wear off or wash away. As silver does not break down, BioCote® will not leach from treated surfaces, retaining its antimicrobial performance. BioCote® is a natural alternative to synthetic (organic) chemical antimicrobials.

Water Systems Engineered For The Way You Live™

According to EPA guidelines, BioCote Ltd cannot claim that BioCote® technology protects users or others against bacteria, viruses, germs or other disease organisms. Always clean and wash products thoroughly.
