PRO-4000 REVERSE OSMOSIS

The Promise of **Pure Water** for Your Home

Providing over 1500 gallons of purified water a month with arsenic, metals, and toxins removed, the Pro-4000RO water filtration system brings custom-engineered reverse osmosis technology to your kitchen sink.

FEATURES

- Solid, Compact, Space-Saving Design
- Economical and Environmentally Friendly
- 3.2 Gallon Tank in Plastic or Steel
- Custom Engineered to Individual Homes
- TDS Removal (total purity): up to 99%
- Heavy Metals Removal
- Taste & Odor Removal
- Sanitary Quick Change Filters
- 12-18 Month Filter Life Expectancy
- Auxiliary Pump Available
- Up to 50 gallons per day
- TFC Membrane

15"W(381mm) x 4.5"D
(114mm) x 16"H(406mm)

Available in a wide
range of colors,
styles, and options.

This custom designed 4-stage RO system fits conveniently under a sink or anywhere you need pure drinking water. It's designed to fit your space and match your decor while removing **99.999%** of the arsenic and toxins in your tap water. It restores taste, removes smell, and protects your family.

This system has been tested for the treatment of water containing pentavalent arsenic (also known as As(V), As(+5), or arsenate) at concentrations of 0.050 mg/L or less. This system reduces pentavalent arsenic, but may not remove other forms of arsenic. This system is to be used on water supplies containing a detectable free chlorine residual or on water supplies that have been demonstrated to contain only pentavalent arsenic. Treatment with chloramines (combined chlorine) is not sufficient to ensure complete conversion of trivalent arsenic to pentavalent arsenic. Please see the Arsenic Facts section of the Performance Data Sheet for further information.
