WATER DOCTORS™ INFINITY™ II WITH SCALEGUARD™ SALT FREE CONDITIONING

Salt free conditioning for water with low hardness (between 1-9 grains per gallon), but high in chlorine, bad taste & odor

This state of the art system is manufactured exclusively by HMI Water Specialists and is **individually engineered** based on your unique water conditions.

Water Doctors™ Infinity™ Technologies with Beyond Filtration are engineered to combine water softening, conditioning and filtration in one system with the highest salt and water efficiency on the market at 97%.

STAGE 1 Fine sediment particles, sand, silica and iron oxide are trapped in a filter that is flushed and backwashed when the **Infinity™** system regenerates. This will also adjust the Ph to a neutral range depending on acidic or alkaline applications.

STAGE 2 Finely ground coconut shell carbon has more surface area for longer bed life and lighter weight than ion-exchange media maintaining filter bed depth after back wash.

STAGE 3 **ScaleGuard™** Salt-Free Water Conditioning System's Crystallization (TAC) media, also known as Matrix Enabled

Particularization or MEP process, transforms calcium ions into calcium crystals, which are stable and cannot attach to pipes, surfaces, hardware or heat exchanger components. The crystals are so small they are easily rinsed away by the water flow.

STAGE 4 High purity copper-zinc granules that reduce contaminants using oxidation/reduction (redox). KDF reduces/removes chlorine, iron, hydrogen sulfide, and heavy metals, and inhibits the growth of microorganisms in potable water without the use of chemicals.

**BOTTLED
WATER
QUALITY AT
EVERY TAP**

Water Doctors Water Treatment Co. is an industry leader that specializes in custom built and engineered water-conditioning equipment.

Water Doctors has been in business since 1984 and is a Water Quality Association member and a division of HMI. All products are UL approved and NSF & WQA certified. We design and install systems ranging from simple inline filters, water softeners, drinking system all the way up to heavy commercial water purification for factories and large-scale corporations.

Each year, one Builder, one Remodeler and one Trade Partner of the Builders Association earns these most prestigious awards that recognize trust, communication, loyalty and ethics in business dealings. Water Doctors Water Treatment Company was honored with this prestigious industry award. This is testimony to Water Doctors' commitment to excellence in products and services to our Home Building partners and their clients.

Through our vast network of homebuilders and dealers, Water Doctors has become one of the most widely distributed water treatment companies in MN, WI, NC, SC, FL and LA. We provide these and ever expanding markets with the most knowledgeable water treatment sales staff and most advanced water-conditioning methods on the market.

Water Doctors employs a full staff of installation technicians, design engineers and service professionals. With over 350 years of combined service we are capable of performing the most complicated installations and solve the most challenging problems. After sales service is also a very important part of our business model. Whether you are in need of water treatment engineering advice, filter service or softener salt delivery, there is a service department waiting to assist you.
